2019 3rd Quarter Training Classes

Asset Management- Hands On Training

We will de-mystify the asset management norms, tools, standards, and practices during this hands-on training session. It will be a mix between classroom training and field training. We will go through real life scenarios how maintenance management and asset management is done in any operations. We will also cover how the office and the mobile workforce (field crew) can work in tandem with full transparency.

Taught by Arnab Bhowmick with AAKAVS Consulting

0.6 Water / WW CEUs (pending approval)

\$160 ERWoW Members

Lock Out Tag Out

Drinking Water and Wastewater processes and the operators do puts them at risk for a problem from stored or accumulating energy. Whether working in an open trench installing or repairing a pipe, replacing valves, working on pump motors, or any number of electrical components and mechanical applications, the potential for disaster is always surrounding them. This class will show how to minimize the dangers by using the program called Lock Out / Tag Out that is designed to assist us in performing work safely

Taught by Lynn Stuart

0.5 Water / 0.4 WW CEUs

\$100 ERWoW Members

\$125 Non-Members

Class Time: 8:30am - 2:00pm

Dates & Locations:

September 19, 2019
