2022 1st Quarter Training Classes

Cross Connection Control Specialist Exam Review (2 days)

At this 2-day course, we will review the information needed to prepare the attendee for the CCCS Exam. We will discuss how cross connections affect public health, the potential risks and liabilities, how to conduct surveys and carry out enforcement actions, the two types of hydraulic condition which cause backflow, and backflow prevention assemblies and their applications.

Taught by Backflow Management Inc
